Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

As a young lady destined to succeed in college, I intend on pursuing many goals, among which are continuing to grow my small braiding business (@kaashdoeshair) and learning more cosmetology related trades, such as applying acrylic nails and eyelash extensions, in hopes of soon being able to open a full-service salon inspired by @theglamtrap. Generational wealth isn't granted by having only one source of income. Another way I plan on succeeding while in college is by working towards a license in real estate. This license will not only help bring in another source of income, but it will also help with pursuing other "side hustles" such as owning an AirBnB and renting out properties to tenants. Once I obtain my bachelor's in biology from Albany State University, I will use my profits to further my education in hopes of becoming a pediatrician with my own practice.
